Join us to discuss the potential for exchange-traded derivatives, such as futures and options contracts to re-invigorate markets for recyclable materials in New Jersey and the US. Hear from leading industry experts, researchers and regulators as we explore issues facing the design and operation of a market for connecting buyers and sellers of recyclable materials, in an interactive (virtual) environment.

Stein Ole Larsen, Co-Founder and CEO, NOREXECO - The Pulp and Paper Exchange | Daniel Folkinshteyn, Rowan University | Jordan Moore, Rowan University | Michael Irgang, President, Global Risk Management Corporation | Philip Roscoe, University of St. Andrews, Scotland | Rostin Behnam, Commissioner, US Commodity Futures Trading Commission | Jordan P. Howell, Rowan University
